

**VACUUM
TRAY SEALER**

The logo for ORVED features the word "ORVED" in a bold, white, sans-serif font. The text is centered within a white, stylized swoosh that curves around the top and bottom of the letters, resembling a protective lid or a dynamic motion line.

ORVED

Sustainable
Progress
future *for* all

The ideal tray packaging solution for all product types, including ready-to-serve meals. Versatile in tray size and design, with a steadfast focus on food wellness, innovation, and sustainability.

VGP Collection

MADE IN ITALY

CUSTOMIZABLE MOLDS

Engineered to fit products of any shape and size, ensuring maximum flexibility and flawless sealing.

QUICK GAS CONNECTOR

Rapid-lock system for effortless inert gas connection, optimizing workflow efficiency.

TOUCH SCREEN (VGP60)

The touch control system simplifies operation and enables instant selection of the ideal process for optimal packaging, even for inexperienced users.

INTEGRATED WIFI (VGP12 MINI & VGP25)

Connect to your corporate network to access advanced features: packaging data downloads, software updates, program loading, maintenance history, and remote display intervention.

INTEGRATED COMPRESSOR (VGP25 & VGP60)

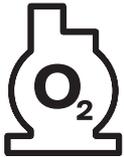

Built directly into the machine, eliminating external devices for greater convenience, space savings, and consistent performance.

SENSORIAL VACUUM SYSTEM

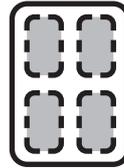

Guarantees perfect, consistent vacuum levels, adjusting packaging times based on product dimensions and humidity

OXYGEN CONFIGURATION (OPTIONAL FOR VGP 25-60)

Certified system for gas mixtures with >21% oxygen, ideal for MAP packaging of fresh meat

CUT OF SEAL SOLUTION (EXCEPT VGP 12)

Excess tray material is trimmed post-sealing for pristine refrigerator-ready packaging and optimal retail presentation

EASY TO MOVE (EXCEPT VGP 12)

Swivel-wheel models ensure adaptable mobility for production needs.

ERGONOMIC HANDLE

Il sistema di chiusura facilitato riduce lo sforzo fisico e l'affaticamento degli operatori, rendendo la chiusura del coperchio semplice. Ideale per lavorazioni continuative.

3 PACKAGING MODES

VGP machines support vacuum sealing, modified atmosphere (MAP), or simple heat sealing.

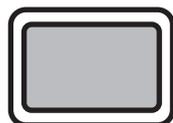

DEGAS (VGP 60)

Customizable progressive vacuum processes with ramp/step sequencing for standardized, high-quality deaeration.

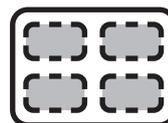

VGP 60 - VGP 20 PRO CONFIGURATIONS

UNIVERSAL SEALING PLATE

CUT OF SEAL COMPLETE SEALING GROUP (OPTIONAL)

-  SENSORIAL VACUUM SYSTEM
-  VACUUM + GAS (MAP)
-  10 USER PROGRAMS
-  TOUCH PANEL
-  CUSTOMIZABLE DEGAS PROCESS
-  BOOSTER COMPRESSOR
-  SELF-BRAKING FILM ROLL SYSTEM

OPTIONAL

-  CUT OF SEAL
-  OXYGEN CONFIGURATION (BOOSTER COMPRESSOR NOT INCLUDED WITH THIS OPTION)

STANDARD MOULD / CUT OF SEAL COMPLETE SEALING GROUP

SKIN GAS TECHNOLOGY

small quantity of gas injection preserves the 'second skin' effect while preventing film punctures from sharp-edged products.

SENSORIAL VACUUM SYSTEM

Guarantees perfect, consistent vacuum levels, adjusting packaging times based on product dimensions and humidity

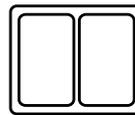

EASY TO MOVE (EXCEPT VGP12)

Swivel-wheel models ensure adaptable mobility for production needs.

5 PACKAGING MODES (COMBI SKIN ONLY)

Skin, Skin+Gas, Vacuum, MAP, Seal Only – Adapt to every need.

INTERCHANGEABLE MOULDS

Easy sealing group replacement system. All models include suction holes to easily hold the film in a perfect position for subsequent packing.

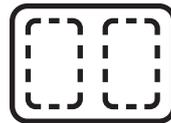

QUICK GAS CONNECTOR

Rapid-lock system enables simple, instant inert gas connection.

PROFI Collection

CUSTOMIZABLE MOLDS

Engineered to fit products of any shape and size for maximum flexibility and flawless sealing.

AUTOMATIC FILM CUTTER

Cuts film post-sealing for easy tray removal and production efficiency.

HIGH-SPEED PACKAGING

Uniform edge sealing in seconds. Ideal for supermarkets, delis, and takeaway.

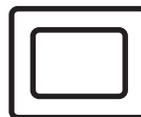

DIGITAL PANEL

User-friendly thermostat for optimal packaging results, even for beginners.

WORK TOP

Molds are designed to ensure perfect tray placement for even, secure, and durable seals.

FIXED WORKTOP (NO LIQUID LEAKS)

Prevents spills of sauces, oils, or liquids during tray placement.
