

HEAT SEALING

VGP 12 mini

The New VGP 12 mini has compact dimensions and it is suitable for the smaller kitchens or food shops, too. It is ideal for the butcher who wants to offer the customers ready-to-cook dishes and gourmet preparations always fresh., as well as for restaurants and delis who want to offer a high quality take away and delivery service. VGP 12 mini represents the new frontier of tray sealing for small food productions in vacuum or modified atmosphere.
