

EXTERNAL EXTRACTION MACHINES

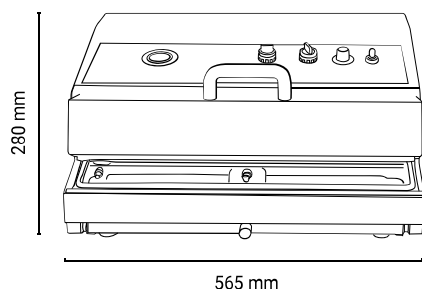

VM 14/90n

External vacuum packaging machine ideal for packaging medium to large-sized products.

The exclusivity of this machine lies in the 520 mm long sealing bar and in the retractable probe: a special system patented by Orved that allows maximum air suction from a smooth vacuum bag, guaranteeing an excellent vacuum level. This innovative system allows the packaging machine to be versatile, packaging any solid product in both smooth and channelled bags.

Technical specifications

IT CAN PACK:

Solids
