

## EXTERNAL EXTRACTION MACHINES

# VM 98

The external vacuum machine VM 98 is ideal to pack solid, small and medium-sized products.

It features an all-stainless steel structure and a self-lubricating pump that requires no oil for operation, guaranteeing high levels of vacuum and performance.

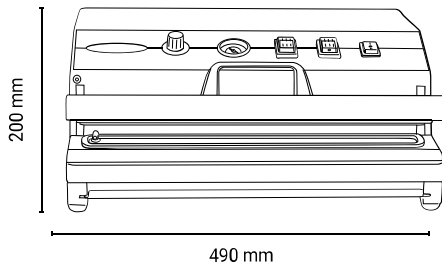

A special retractable probe, patented by Orved, allows the machine to pack products smooth bags.

VM98 is equipped with a stainless steel shelf that allows the machine to facilitate the support of the bag during the packaging cycle, cycle, making the packaging operations as simple as possible.

Recommended for small to medium sized laboratories for packaging dry products, also ideal for those who need to pack sharp or pointed products, in smooth vacuum bags thanks to thicknesses that can avoid any punctures.

## Technical specifications

### IT CAN PACK:

Solids

**BODYWORK**  
Stainless steel

**VACUUM PUMP**  
30lt/m

**TYPE OF PUMP**  
auto-lubricating

**DIMENSIONS**  
490 x 415 x 200h mm

**WEIGHT**  
20 Kg

**VOLTAGE**  
220-240V / 50-60Hz - 1000W

**SEALING BAR**  
420 mm

**INSTALLATION**  
counter top

## Details

**Robust**

**Compact dimensions**

**Retractable Probe**

## Kits

**Vacuum on  
containers**

**Manual**

**ON REQUEST**

**Suction tube**
